## More Friendly to Railroads.

There is a pretty widespread public reaction against oppressive measures towards the railroad companies and a feeling that these corporations are not the grinding monopolies they are represented to be by some of the modern statesmen who think they have a mission to fight railroads. The mighty development going on, the miles opened, new farming established, manufacturing towns growing up and the scores of new industries of various kinds established, the increase of business and the increase of wealth are largely due to railroad construction. It is certain that without the co-operation of the railroads there would have been no such development and splendid progress in the Southern States as has been witnessed in the past ten years.—The South.

**CHILDREN EAT A BABY.**—News of a terrible story of murder and cannibalism near Rye's Mill has been received at Atlanta, Ga. Lucy President, a degraded and idiotic negro woman, left her home and nine months old infant in charge of her two older children, Mark and Linda, aged respectively 11 and 9 years. She went to the place of Mr. J. A. Knight two miles distant, to do some work for Mrs. Knight. After her departure it appears that Mark resolved upon putting the infant out of the way. So he told his sister what he proposed doing, at the same time telling her that if she told he would kill her. Proceeding as aze, he deliberately knocked it in the head and mangled its body in different places. Not content with the crime that he had already committed, he took a fork and gouged out the eyes of the little one, which he roasted, and then, taking a slice out of either jaw, heard his sister eat themselves down to a fact. When the mother returned and found what had been done, she did not show the least sign of maternal grief.
